About Me

I'm Alin Sharma, a passionate Computer Science Engineering student with expertise in C, C++, Data Structures, and MERN Stack Development. Skilled in building real-world projects using HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, MongoDB, Bootstrap, and Tailwind CSS. Recognized for strong problem-solving, teamwork, and leadership abilities, developed through internships, hackathons, and academic projects. Quick learner with adaptability and a drive to deliver efficient technical solutions.

Skills

- Programming: C, C++ (Object-Oriented), JavaScript
- Web Development: HTML5, CSS3, Tailwind CSS, Bootstrap, React.js, Node.js, Express.js, MongoDB (MERN Stack)
- Frontend: Responsive Design, Cross-Browser Compatibility, UI/UX Development
- Tools & Platforms: Git, GitHub, VS Code, npm, Microsoft Word, Microsoft Teams, LinkedIn
- Deployment: Netlify, Vercel, Render
- Soft Skills: Problem-Solving, Teamwork, Leadership, Communication, Creativity, Quick Learner, Collaboration, Time Management

Education

Bachelor of Technology (B.Tech), Computer Science Engineering |
Poornima College of Engineering | 2022–2026

Achievement

- Udemy – Microsoft 365 (April 2023): Completed a 22.5-hour course on Word, Excel, PowerPoint, Outlook, and Teams, enhancing productivity and collaboration.
- Hackathon – Hack IT Sapiens (April 2023): Participated in a 36-hour coding challenge, developing innovative solutions and improving teamwork and problem-solving skills.
- Internship – InternPe (Aug 2023): Worked as a Web Development Intern, focusing on responsive design and frontend development, gaining leadership experience.
- Startup Expo – SKIT College (March 2024): Achieved 3rd place in an entrepreneurial innovation challenge, demonstrating teamwork and problem-solving skills.
- Samyak IT Solutions (Aug–Nov 2024): Completed a live project internship in C & C++, focusing on OOP, DSA, and programming structure, earning top performance.
- REGenx Software Services – MERN Internship (June 2025): Completed an academic internship with hands-on projects in full-stack development using MongoDB, Express.js, React.js, and Node.js.

Projects

- My own website;- <https://alinsharma.github.io/Portfolio/>
- Bank Account Management System (C++): Developed a console-based banking app utilizing OOP concepts, including file handling, user authentication, and transaction tracking.
- Employee Management System (C): Created a project for employee records and payroll management using data structures like arrays and linked lists.
- E-commerce Website (MERN Stack): Designed a full-stack e-commerce app with MongoDB, Express.js, React.js, and Node.js, featuring user authentication, product catalog, shopping cart, and payment integration.
- Calculator Application (JavaScript + HTML/CSS): Created a responsive web-based calculator using JavaScript, HTML5, and CSS3 with DOM manipulation and event handling.
